**Re: Texas Orthopaedic Association's Resident Networking for Future Practice Opportunities**

Dear Resident:

TOA often hears from residents who are seeking future practice opportunities in Texas. On the flip side, Texas orthopaedic practices often contact TOA about their desire to network with residents about future practice opportunities.

As a result, TOA has created an online networking opportunity for residents in all stages of their residency to notify Texas practices about their potential desire to practice in Texas in the future.

It's simple for residents to participate:

- E-mail TOA your CV and a few sentences about yourself that you would like to share with orthopaedic practices in Texas. The sentences could talk about your sub-specialty, the type of practice that you would like, area of the state, etc.
- Upon request, TOA members (orthopaedic surgeons and practice administrators) may access the site, which will include the resident profiles. The site will not be made available to the general public.

If you are interested, submit your CV, a few sentences that summarize what you are looking for in a practice, and include your preferred contact information to [Edberg@toa.org](mailto:Edberg@toa.org). We will give you access to the web page.

I look forward to building more opportunities for residents and orthopaedic practices to connect with each other through TOA. I can be reached via mobile phone at 817.965.6983 or [Fixedbones@gmail.com](mailto:Fixedbones@gmail.com).

Also, don't forget to mark your calendar for TOA's 2021 Annual Conference, which will be held February 5-6 at the AT&T Conference Center in Austin. Once again, TOA will provide a free hotel room to all residents who would like to attend. This is another great way to network with orthopaedic practices in Texas.

Sincerely,

Kenneth J. Kaminski, MD  
President, Texas Orthopaedic Association
